RESIDENCY PROGRAM AT
**Riverside Community
Hospital**

Welcome to the Anesthesiology Residency Program at Riverside Community Hospital

The Anesthesiology Residency Program at Riverside Community Hospital is part of the HCA Healthcare Graduate Medical Education network. HCA Healthcare is the nation's leading provider of quality, patient-centered care. We are also the leader in graduate medical education, all brought together by a single mission:

Above all else, we are committed to the care and improvement of human life.

Starting your anesthesiology training at Riverside Community Hospital, a part of HCA Healthcare, you will be provided access to a tremendous variety and complexity of patient care settings completely preparing you for independent practice.

As a resident in our program, you will have opportunities for participating in the care of patients with complex cardiac diseases, poly-trauma, solid organ transplants, oncologic cases, challenging obstetric cases, and could potentially rotate out to iconic, local, medical institutions like Loma Linda University, Children's Hospital Orange County, or Children's Hospital Los Angeles.

In addition to an incredible training environment, you will have access to one of the largest patient data warehouses and training research faculty to support you in your anesthesia research. As a graduate of our program, you will be capable of independently caring for all age groups and comfortably managing complex medical conditions.

Riverside, an under recognized location in Southern California, is less than 60 miles from beaches, wineries, and mountains, as well as close to San Diego, Los Angeles, and Las Vegas. With three airports within an hour's drive, it helps to make travel very convenient.

In addition to our incredible location, our program is part of the HCA Healthcare Graduate Medical Education system that supports over 200 programs and nearly 5000 residents annually in one of HCA Healthcare's 185 hospitals nationwide. Specifically, our program is located at Riverside Community Hospital (RCH), a 478 bed facility and Level 1 Trauma Center, serving this region for over a century. Recently labeled as the "Best in the Inland Empire", RCH is a regional medical powerhouse, nothing like a 'community' hospital.

Thank you for considering us. I look forward to connecting with you.

Nutan Winston, MBBS, MD

Anesthesiology Program Director

Our Faculty

Nutan Winston, MBBS, MD

Dr. Nutan Winston completed her anesthesiology residency from Cornell and Cardiothoracic fellowship from Columbia University, NYC. Formerly, Chair of Anesthesiology at St. Francis Hospital/ Deborah Heart and Lung Institute/ Mercy Fitzgerald Hospital she is currently Chief of Anesthesiology at RCH. Her interests include Trans catheter Cardiovascular Procedures, TEE, team building, Animal Rescue/ Animal Rights.

Mahesh Desilva, MD

Mahesh Desilva is an ABA board certified Anesthesiologist who trained at Yale University School of Medicine. He is a staunch advocate of Anesthesiologists role as Perioperative Consultants and patient safety advocates. He is a general Anesthesiologist with a keen interest in regional anesthesia and a passion for teaching. In his spare time he enjoys traveling, following sports and helping the less fortunate.

Bruce Holmblad, MD

- Board Certified, Former Major Air Force, with 33 years as general/ cardiac Anesthesiologist with interest in Electrophysiology and Simulation.
- Currently President of Riverside County Medical Association and serves on Board of Trustees for Riverside Community Hospital.
- Wants graduating Residents to be safe, pass boards, and give back to the community.

Maninder Singh, MD

Dr. Singh completed his anesthesiology residency and cardio-thoracic fellowship from Columbia University in New York City. He began his employment at Riverside Community Hospital in 2014 and is involved in open heart surgeries and structural heart procedures. His interests include perioperative T.E.E. and T.T.E., mitral valve disease, and pulmonary hypertension.

Munish Loomba, MD

Dr. Munish Loomba is a fellowship trained board certified pain management physician and a board certified anesthesiologist who has been practicing pain management in the Inland Empire for the last 3 years. He completed his residency from Drexel University in Philadelphia and fellowship at University of Pittsburgh Medical Center.

Tom Yao, MD

Dr. Yao completed his training at The University of Texas Health Science Center and The University of Kansas Medical Center. Before becoming a doctor, he worked at NASA/Johnson Space Center as an electrical engineer. Anesthesiology is a unique specialty where state-of-art technology and scientific advancements are used during surgery.

Mukesh Gupta, MBBS, DA, DCH

Dr. Gupta is an Associate Clinical Professor University Of California Riverside and a Cardiothoracic Anesthesiologist, who is presently the Chair of Anesthesiology Section. Dr. Gupta enjoys mentoring Medical Students and teaching Residents. Dr. Gupta has practiced Anesthesiology and has taught in three subcontinents. Dr. Gupta wants to groom Residents to be Leaders of Tomorrow.

Our Faculty

Bo-Lu Zhou, MD

Dr. Zhou graduated from New York Medical College and trained in Albany Medical Center residency program, joined RCH Anesthesiology department in 2020. He is interested in improving patient safety and satisfaction, and promoting friendly working environment. He enjoys doing all types of anesthesia and resident teaching. In spare time, he likes to read sci-fi, Egyptology, and extraterrestrial stories.

Sabrina Ngo, MD

Dr. Ngo earned her medical degree from the Medical College of Virginia (MCV/VCU) and completed her residency training at the University of Maryland Medical Center. She is involved in teaching medical students and residents as a faculty member of UC Riverside School of Medicine.

Husam Alsamman, MD

Dr. Alsamman is board certified in Anesthesiology and in Critical Care Medicine. He graduated from Damascus University School of Medicine. He completed his residency in Anesthesiology, as well as fellowships in Cardiac Anesthesia, Pain Management, and Critical Care Medicine with the Cleveland Clinic Foundation. Additionally, he completed his Cardiothoracic Anesthesia fellowship at UCLA Medical Center.

About Our Graduate Medical Programs

Excellence in Physician Training & Education in Southern California

Our **graduate medical education programs**, located in the heart of Southern California, hosts residents who are pursuing careers of excellence and professionalism in the field of healthcare. Our state-of-the-art facility provides a competitive advantage through our full range of service offerings, exposing our residents to a diverse range of patients and clinical challenges, preparing them for lifetimes of capability in their practices. Keep reading to learn more about what sets our residency program apart.

Residency at Riverside Community Hospital

Our goal is to assist our residents in developing the skills needed to start their careers well. By the end of training with our team at the Riverside Graduate Medical Education Program, we want our residents to be clinically astute, academically exceptional, altruistic, and committed to the highest standards of professionalism.

There are many benefits to choosing our program:

- **Experience** – We have an exceptional faculty committed to teaching while their practices offer a full range of clinical scenarios and patients. Learners can expect nothing less than a well-rounded educational experience working with a broad range of conditions and diseases, kick-starting their careers and giving them invaluable experience.
- **Facility** - Riverside Community Hospital invests in much of the latest technology available in order to improve and enhance the patient experience. This in turn benefits our students and residents as they receive hands on training and experience with this equipment.
- **Location** - We are located in Riverside in the heart of Southern California. Riverside is less than 60 miles from beautiful beaches, wineries, and mountains, and close to world famous tourist locations including San Diego, Los Angeles, and Las Vegas. Our residents enjoy a once in a lifetime experience in one of the most exciting and vibrant places on earth.

To learn more about our residency program and the application process, contact **Riverside Community Hospital** today.

About HCA Healthcare GME

HCA Healthcare is a comprehensive healthcare network with over 275,000 colleagues across more than 2,000 care facilities all committed to creating a positive impact every day. We continually invest in our colleagues and facilities to better serve our patients and local communities. The Graduate Medical Education (GME) programs seek to inspire tomorrow's physicians to care for and improve human life by focusing on patient-centered approaches to practicing the latest evidence-based medicine.

To learn more about the benefits and expectations of training with an HCA Healthcare program, view our [Resident and Fellow Manual](#).

Scholarly Activity

HCA Healthcare Graduate Medical Education provides a critical link between vigorous scholarly activity and real-world patient care from a sophisticated data repository of more than 32 million patient encounters each year.

2,500+ HCA Healthcare GME scholarly activities in 2020-21.

Clinical Training

Each year approximately five percent of all U.S. hospital services happen at an HCA Healthcare facility, including:

32+ million patient encounters
7.4 million emergency room visits
215,000+ babies delivered

HCA Healthcare Graduate Medical Education is a leader in clinical experience.

- Nationally known physician expertise across the country
- Investments in facilities allowing the advancement of patient care
- High emphasis on simulation results and low patient incidents
- Higher patient touch than academic facilities
- Annual collaborative mass casualty event team training

A commitment to scholarly activity

Based on more than 32 million patient encounters each year, our scholarly activity bridges the gap between compelling evidence and exceptional patient care.

Our experiential learning is rooted in evidence-based medicine that leads to innovative, **real-world patient health solutions**.

Merging the rigor of **ACGME** accreditation with high patient touch, our residents and fellows deliver evidence-based care that demonstrates our mission to care for and improve human life.

We offer **National Grand Rounds** that leverage accomplished clinical expertise from across HCA Healthcare, bringing the nation's leading medical experts to our residency and fellowship programs.

Influential Collaboration

HCA Healthcare residents and fellows have access to talented, highly skilled teams of faculty, industry experts and dedicated researchers to guide them through their journey. Residents and fellows produce evidence that drives future practice by leveraging HCA Healthcare's national clinical data warehouse – the heart of our data ecosystem.

HCA Healthcare Scholarly Commons is a platform to collect, share and publish the variety of academic work created by the Graduate Medical Education community. During 2020, readership of those works eclipsed the 25,000 mark. Included on this platform is the **HCA Healthcare Journal of Medicine**, a peer reviewed scientific periodical focused on innovation, enhanced quality and developing new knowledge in clinical care and medical education for the benefit of all patients. In its first year of publication, the journal disseminated 86 articles in six issues as well as a seventh special issue on the COVID-19 pandemic.

About HCA Healthcare

HCA Healthcare is one of the nation's leading providers of healthcare services and is comprised of 186 hospitals and more than 2,000 sites of care including surgery centers, freestanding ERs, urgent care centers, diagnostic and imaging centers, walk-in clinics and physician clinics in 20 states and the United Kingdom. With its founding in 1968, Nashville-based HCA Healthcare created a new model for hospital care in the United States.
